

**Construction information**

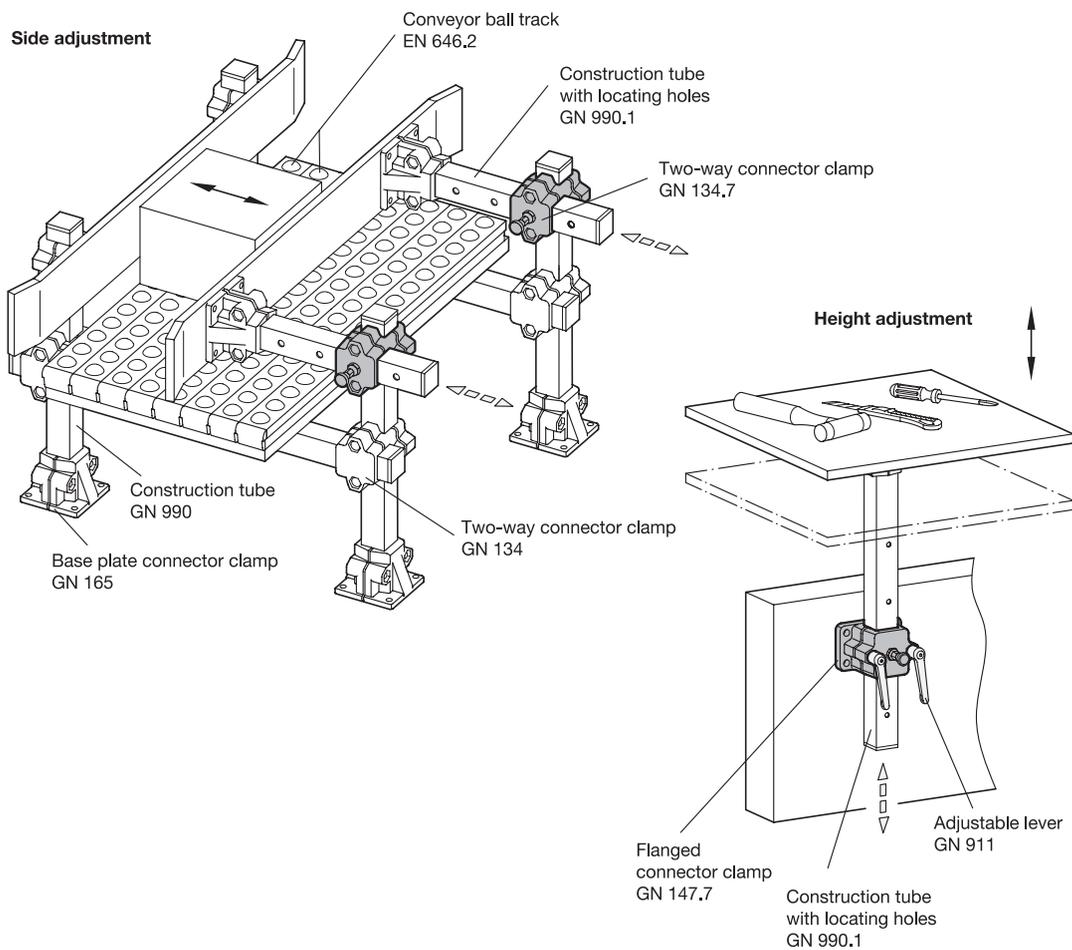

The square dimensions of these flanged connector clamps are designed for GN 990 construction tubes. These can be fitted by the user with locating holes (B or S) according to the dimensions specified in the table.

Construction tubes with locating holes can be ordered as standard part GN 990.1 cut to length and completely ready for installation.

Dimensions in: millimeters

s Square	$d_6 + 0.3$ Bore (for type R)	$d_7 + 0.3$ Countersink (for type D)	For flanged connector clamps
V 25	B 5	S 2.5	V 25
V 30	B 5	S 2.5	V 30
V 40	B 8	S 4.5	V 40
V 50	B 8	S 4.5	V 50
