Specification

- Base
  Stainless steel, plain, tumbled finish
  European Standard No. 1.4301 (AISI 304)
- Threaded stud / tapped socket
  Stainless steel
  European Standard No. 1.4305 (AISI 303)
- Hexagon nut ISO 4032
  Stainless steel
  European Standard No. 1.4301 (AISI 304)
- Rubber pad
  Perbunan® (NBR) 70 ±5 shore A
  - Vulcanized, non-skid
  - Black
- RoHS compliant

Information

GN 43 leveling feet are intended for use in aggressive environments. The wide range of possible combinations of the base and the adjusting spindle variations make these leveling feet universally applicable.

The leveling feet can be screwed to the mounting surface using the slotted lag bolt hole, which prevents lateral slippage. The types with rubber pad also protect sensitive surfaces.

These leveling feet are supplied fully assembled and cannot be disassembled.
