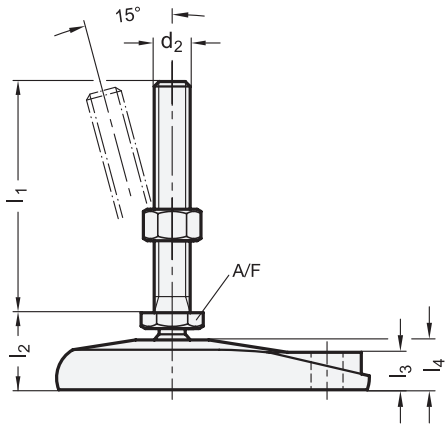
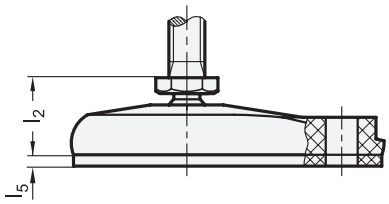
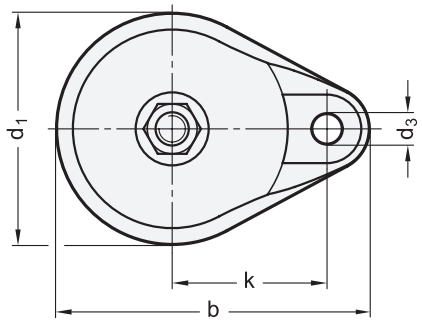
Type **A**



Type **E**





Inch

SS Stainless Steel

4 Type

A Without pad
E With rubber pad

Specification

- **PM 600**
  Threaded stud
  Low carbon steel
  - Clear zinc plated
  - Forged and thread rolled
- **PM 600.1**
  Threaded stud
  Stainless steel AISI 303
  Forged and thread rolled
- Base
  Nylon plastic
  Glass fiber reinforced
- Rubber pad
  Elastomer, non-skid
- RoHS compliant

Information

PM 600 and PM 600.1 "PolyMount"™ leveling mounts are an economical choice for light, medium, and heavy-duty applications.

The base on the teardrop makes it easier to drill for and install a mounting bolt. The shape offsets the single mounting hole to the outside of the machine footprint, providing the clearance necessary to drill the mounting hole without moving the machine. The mounting hole can accommodate to a 1/2" diameter mounting bolt.

The mount swivels 15° to all sides of the center line to adjust to uneven surfaces.

To determine the proper mount size and required load per mount, divide the equipment's weight by the number of mounts needed.

The hexagon nut is a standard part of the assembly.

- *"PolyMount"™ Leveling Mounts PM 500 / PM 500.1 (Tapped Socket Type, without Teardrop)*
- *"PolyMount"™ Leveling Mounts PM 500 / PM 500.1 (Threaded Stud Type, without Teardrop)*

On request

- Additional sizes
- "Socket Lock" technology to lock stud into place, preventing pullout in especially harsh applications

How to order (Steel)

PM600-4.00-1/2X13-6.00-A

1	**Base diameter d_1**
2	**Thread d_2**
3	**Stud length l_1**
4	**Type**

How to order (Stainless steel)

PM600.1-4.00-3/4X10-8.00-E

1	**Base diameter d_1**
2	**Thread d_2**
3	**Stud length l_1**
4	**Type**
