- Body Aluminum
- Powder coated
- Black, RAL 9005, textured finish
- Plain, matte shot-blasted finish

- Hex nuts DIN 985 Stainless steel AISI 304 Self-locking via polyamide ring
- Stainless Steel Characteristics → page QVX
- · RoHS compliant

#### Accessory

• Adjustable levers GN 911 → page QVX

### On request

• Other bore and square combinations  $d_1$  /  $s_1$  and  $d_2$  /  $s_2$ 

# Information

The clamping bores of GN 135 two-way connector clamps are designed for GN 990 or DIN 2391, DIN 2395 and DIN 2462 construction tubes.

The versions with square bores are also suitable for use with **profile systems**.

The bores and squares are arranged in such a way that an adaptation between different tube crosssections is possible.

At the screw locations  $\mathbf{z_1}$  /  $\mathbf{z_2}$ , the socket cap screws reduce the bore cross-section for clamping.

For clamping without tools, the socket cap screws can be replaced by the GN 911 adjustable levers listed in the table as accessories.
