## Specification

- Steel
- Profile milled knurl
- Scale ring body $d_{1}$ fine turned
- Plain finish (standard version)
- Matte chrome plated without scale
- Matte chrome plated with scale
- Scale

Black, laser engraved

- Clamp ring

Rubber

- Friction ring

Polyamide

- ISO Fundamental Tolerances $\rightarrow$ page 2129
- RoHS compliant

## On request

- Special graduations, see
"How to Order Graduations" $\rightarrow$ page 328

## Information

The non wearing friction ring guarantees that the scale ring revolves in unison with the shaft. This low cost solution is achieved, because no other connecting members are required.

These scale rings are available with or without scale, matte chrome plated with numbers and markings in black.
Also, these scale rings can be supplied with any type of graduation.
Regarding design, numbering position and numbering sequence of the scale please see the layout for scale rings on the order form "How to Order Graduations" $\rightarrow$ page 328. see also...
