

Metric

Bearing type B

Bearing type K

elesa
Original design RE.F4

2 Bearing type

- B** Bore
- K** Annular ball bearing

3 Bracket type

- A** Wheel without bracket

Specification

Wheel tread

Plastic, polyurethane (PUR)

- Cast
- Yellow
- Hardness 92 Shore A

Wheel core

Cast iron

Operating temperature

-4 °F to 176 °F (-20 °C to +80 °C)

RoHS

Wheels EN 22887 are used in industrial and public indoor areas for moving transport carts, for example.

The wheel tread offers low rolling resistance as well as good wear and tearing resistance.

With bearing type K, the low wear on the ball bearing increases the service life, and the mounting to the inner ring can be accomplished with zero axial backlash.
