Information
EN 237.1 hinges are made of blue plastic granulate that is FDA compliant as per FDA CFR.21 and EU 10/2011 as well as visually detectable or metal detectable.

The blue color is especially easy to see with the human eye and is also easy to detect with optical monitoring systems. This allows monitoring of the production process, such as in food production, so that the process can be interrupted if foreign bodies are detected.

The plastic of version MDB contains metal detectable additives. Metal detectors will be triggered by this material from a particle volume of about 0.125 cm³, meaning that even hidden plastic chips can be detected.

Specification

- Body
  Plastic
  Technopolymer (Polyamide PA)
  - Glass fiber reinforced
  - Temperature resistant up to 176 °F (80 °C)
  - FDA compliant plastic granulate
  - Blue, RAL 5005, matte finish
  - Visually detectable VDB
  - METAL DETECTABLE

- Pin
  Stainless steel AISI 303

How to order

EN 237.1-50-50-A-VDB

1 Width l₁
2 Length l₂
3 Type
4 Material / Finish
