Information

The clamping bore of GN 273.4 sensor holders is mechanically machined and designed for GN 990 or DIN 2391, DIN 2395 and DIN 2462 construction tubes. At the screw location z, the socket cap screw reduces the bore cross-section for clamping. For clamping without tools, the socket cap screw can be replaced by a GN 911 adjustable lever listed in the table as accessory.

Specification

- Body
  - Aluminum
  - Powder coated Black, RAL 9005, textured finish

- Socket cap screws DIN 912 Stainless steel AISI 304

- Hex nuts DIN 985 Stainless steel AISI 304 Self-locking via polyamide ring

- Stainless Steel Characteristics → page 2143

- RoHS compliant

Accessory

- Adjustable levers GN 911 → page 1810

On request

- Stainless steel version

How to order

GN 273.4-B14-B18-2-SW

1. Bore d₁
2. Bore d₂
3. Identification no.
4. Finish
