Information

GN 286 swivel clamp connector joints are an assembly of two GN 276 swivel clamp connectors. For type S with stepless adjustment, swivel clamp connectors with centering step are used. The clamping bores are mechanically machined and designed for GN 990 or DIN 2391, DIN 2395 and DIN 2462 construction tubes. At the screw locations $z_1$, the socket cap screws reduce the bore cross-section for clamping. For clamping without tools, the socket cap screws can be replaced by the GN 911 adjustable levers listed in the table as accessories.

Specification

- Body
  - Aluminum
  - Powder coated
  - Black, RAL 9005, textured finish
  - Plain, matte shot-blasted finish
  - SW

- Socket cap screws DIN 912
  - Stainless steel AISI 304

- Hex nuts DIN 985
  - Stainless steel AISI 304
  - Self-locking via polyamide ring
  - BL

- Stainless Steel Characteristics → page 2143
- RoHS compliant

Accessory

- Adjustable levers GN 911 → page 1810
- GN 286-B40-B45-S-2-SW
