

**SS** Stainless Steel

**2** Type

- N** U-bar version, with two flanged washers
- NC** U-bar version, with two flanged washers and GN 708.1 spindle assembly
- P** Solid bar version, with weldable clasp

**Specification**

- Toggle clamp  
Case-hardened steel C10 —
- Zinc plated, blue passivated finish
- Tempered bearing pins
- Case-hardened bearing rivets (for size 355 and up)
- Stainless steel AISI 304 **NI**
- All moving parts lubricated with special grease
- Hand grip  
High quality, oil resistant red plastic
- Spindle assembly GN 708.1, Type A → page 858
  - Steel, zinc plated, blue passivated finish / Stainless steel AISI 304
  - Rubber tip 85 shore A
- *Stainless Steel Characteristics* → page 2143
- **RoHS compliant**

**Information**

GN 820.1 horizontal acting toggle clamps work according to the toggle principle: lever and clamping bar move in the opposite direction.

They require less space for the clamping action. In the clamped position the operating lever is in its horizontal position.

Horizontal acting toggle clamps in the U-bar version with two flanged washers (Type N) can accommodate an application specific clamping screw. A spindle assembly with neoprene rubber tip is also included for Type NC.

Type P version can either be utilized by welding the clasp which can then accommodate an application specific hold-down fastener component.
